MADHUSUTHANAN P

Tiruppur, Tamil Nadu, India | +91 63836 71241 | pmadhusuthanan2007@gmail.com
LeetCode: leetcode.com/u/madhusuthanan24 | **Codeforces:** codeforces.com/profile/madhusuthanan24

PROFESSIONAL SUMMARY

Computer Science and Engineering student (CGPA 8.17) at Sri Shakthi Institute of Engineering and Technology, specializing in AI Engineering and Backend Development. Practical exposure to Java Full Stack development, with project experience in AI, machine learning, NLP, digital-twin and web applications. Seeking opportunities to build reliable, scalable and intelligent software solutions.

EDUCATION

B.E. Computer Science and Engineering 2024–2028 | CGPA: 8.17
Sri Shakthi Institute of Engineering and Technology, Coimbatore

Higher Secondary Education (Computer Science) 2023–2024 | 87%
Government Higher Secondary School, Kangayam

TECHNICAL SKILLS

Programming Language: Java
Web and Backend: HTML, CSS, JavaScript, React JS, Node.js, FastAPI
Databases: MySQL, SQL, MongoDB, PostgreSQL, Redis
AI / Data: Machine Learning, NLP, Time-Series Analysis, RAG, OCR, AI application development
Core Computer Science: Data Structures and Algorithms, DBMS, Operating Systems, OOP, Software Engineering

PROJECTS

- **AI-Powered Public Grievance System** *(Python, NLP)* — Automates complaint registration, classification, prioritization and routing; applies NLP to analyze citizen grievances for faster resolution.
- **Digital Document Assistant** *(Python, AI, NLP, OCR)* — Extracts, analyzes and summarizes information from digital documents to simplify retrieval and document management.
- **Smart Credit Risk** *(Python, ML, Data Analysis)* — Machine-learning system that analyzes financial and customer data to predict credit risk and support lending decisions.
- **AI-Based Import Export Portfolio System** *(Python, ML, AI)* — Analyzes market and product data to give optimized product portfolio recommendations for business decisions.
- **Code Pattern Analyzer** *(Python, ML, NLP)* — Identifies coding patterns, detects potential errors and evaluates code quality to improve maintainability.
- **Pharmacy Customer Connect System** *(React, Node.js, MongoDB)* — Healthcare platform connecting pharmacies and customers: online medicine ordering, prescription management and communication.

CODING AND PROBLEM SOLVING

- Solved **350+ problems on LeetCode**, strengthening data structures, algorithms and problem-solving skills.
- Solved **50+ problems on Codeforces**, practising competitive programming under time constraints.

INTERNSHIP EXPERIENCE

Full Stack Development Intern — Apex I Sys Technologies, Coimbatore | May 22 – June 2

- Worked with HTML, CSS3, JavaScript, Java, J2EE, MySQL and JDBC on responsive interfaces, server-side processing and relational database operations.
- Gained hands-on practice in CRUD operations, user registration, login authentication, form validation, frontend-backend integration, debugging and testing.

LEADERSHIP AND VOLUNTEERING

- **Volunteer, Sri Shakthi Hackathon** — supported participant coordination and event operations as part of the organizing team.

CERTIFICATIONS

NPTEL — Programming in Java | Udemy — JavaScript Bootcamp | Udemy — Python Bootcamp | Introduction to Artificial Intelligence

STRENGTHS AND LANGUAGES

Strengths: Analytical thinking, quick learning, teamwork and communication, debugging and testing. **Languages:** Tamil, English
